

# BRING WORK BACK INTO SAP

Your business moved outside SAP. Excel. Emails. Side systems.  
That model no longer works. Not with AI. Not with S/4.

Adjust and act inside SAP, on live data, in hours.

## INSIGHT ZAP

### MAKE SAP THE PLACE WHERE DAILY WORK GETS DONE.

Enhance reports, build workflows, automate  
processes, and make decisions, inside SAP.  
No shadow tools. No backlog. Zero data  
leaving the system.

## AI FROM DAY 1 FOR ECC/S4HANA

### ASK

Explore live SAP data  
with simple prompts.

### BUILD

Generate columns, formulas,  
joins, charts, and logic in  
minutes.

### ACT

Trigger workflows, updates,  
approvals, and operational actions  
directly inside SAP.

We're delivering solutions  
faster and at lower cost,  
without extensive custom  
development.

**Rafael Perez**  
Manager, Digital Technology

It took us two days to  
learn the suite and two  
more days to create 9  
full processes.

**Bob Buttrick**  
Analytics Engineer

This enables agile  
deployment of tools  
and reports in hours.

**Mike Shadle**  
Director Enterprise Application

Insight Zap's impact  
is massive. It allowed  
us to move from  
defense to offense.

**Aryeh Krauss**  
Revenue Controller

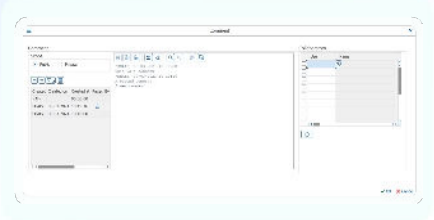

## INSTANT FIORI

Turn existing SAP reports and processes into responsive Fiori-style apps for desktop and mobile, without any development.

## AUTOMATE REPORT DISTRIBUTION

Send the right SAP data to the right people automatically by email, SMS, WhatsApp, folders, or FTP.

## COLLABORATE INSIDE SAP

Add comments, tag teammates, and manage operational discussions directly inside SAP.

### UPGRADE SAFE

No code freeze.  
Keep working on the same reports you already have, via configuration. Less debt, nothing new to build.

### DATA SECURITY & GOVERNANCE

Governed. Authorized. Auditable.  
Run every action under your existing SAP authorizations. Track every change. Keep data exactly where it belongs.

### QUICK SETUP

Live inside your SAP environment in 30 minutes. No big projects. Start work on day one.
